WILL THE

PEOPLE

SUBMIT?

Following are the net results of the infamous Goebel Election Controversy. Democats, about 1,000,000, control the election system in every county in Kentucky. In 36 counties there are two Democrats and one Republican. In 13 other counties there are two Democrats and one Populist Commissioner; and in the 11 remaining counties we have solidly Democratic Boards.

Rep. Republicans are helpless minorities in 40 counties; in 16 counties, and in 24 counties they are absolutely without representation on the Boards that are masters of the election machinery, past and all time contracts and those whose most influential directions there is no appeal.

The Republican organizations were not permitted to select the field Rep. Heaps opposition, and it is a remarkable fact that the so-called Populists are nearly all Democrats in disguise, having voted and acted with the Democratic party on every important occasion.

The mark of hypocrisy that was put on when Judge Parson was elected a member of the State Election Commission has been thrown off, and the Goebel conspiracy is revealed in all its hideousness.

Has the Republic party been such an enemy to the state and Nation as to justify these outrages against law and decency to drive or keep it from power?

Is the supremacy of WILLIAM GOEBEL and his big-bossed cronies so strong that it is safe to let the Kentuckians know as to condone this unmentionable rape of the ballot?

Will the people submit?

REPUBLICANS cannot afford to vote for any man who upholds the Free-silver folly.

Two New York women have returned from the Klondike and report an appalling death rate at Dawson City. Of course Secretary of War ALGER is to blame for this.

Haven't the citizens and property owners of Maysville any rights that the City Council fails to stand up for? or is the City Council the Master instead of the Servant of the people?

It is announced that JOHN D. ROCKEFELLER will furnish funds to purchase the ground and to build a large social settlement house in the Blasiuski district of Cleveland. Wonder if the Blasiuski Debs and the balance of the "Walking Delegates" who work with their mouths will consent to this gift of Mr. ROCKEFELLER?

The Mexican Red Cross Society has called \$500 in gold for the relief of sick soldiers returning to Spain. As Mexico is a Free silver country at a ratio of 16 to 1, and as she had, at last official report, a stock of only \$50,000,000 in silver, it's a wonder she hadn't cabled \$7,500 in silver. Why was this?

The Building Committee of the Washington Fire Department have opened a ro-ro-hotel reading that is an ornament to the city and a credit to the generous citizens who subscribed so liberally toward it. It is little short of an outrage that the new building should be endangered from the same source that destroyed the old one. Gentlemen of the City Council, the friends of the Opera house appeal to you for protection.

The Albany Argus says it is noteworthy that since the 1st of January this year more than \$14,000,000 have been given by wealthy citizens of the United States for the use and benefit of the poor. Large amounts have been distributed as follows: Colleges, \$7,000,000; charities, \$4,000,000; Orphanages, \$1,500,000; Libraries, museums, etc., \$1,000,000. The gifts making up this grand total, three have exceeded \$1,000,000; two \$500,000; four \$200,000; ten \$100,000, and twenty \$10,000 each. If there were no millions there could be no such great donations.

EDWARD BRECKENRIDGE of Cincinnati is the least known fool to start the kitchen fire by pouring coal oil on it. He deserved the fate he met, but it's a pity the property was damaged \$50 worth.

During the past six or seven weeks fifty carloads of beer and six carloads of cigarettes have been sent from the United States to the Philippines. The beer is all right; but we can't imagine what the Filipinos have done to merit the latter punishment.

"Yes, I presume the poor man was trying to keep his choir together through the winter weather."

If that victory of Ondurman had been an American, instead of an English, one of the young journalists would not be demonstrating that he had been born in the United States, and that the place could only have been taken without the loss of a single life.

TRICKS OF TS COUNTRY EDITOR.
Goliath Journal.
A friend writes to know the origin of the popular word "goliath." From the best information we can collect it was first used by an editor who died and went to heaven, and looked for the man who took his paper for five years and then refused to pay for it.

A RACING BUSINESS.
Philadelphia Call.
"John, dear, does your business bring you into contact with publishers?" asked the innocent wife.
"Yes, John," replied hesitatingly. "But why do you ask?"

"You were talking in your sleep about bookmakers."
